

BACTINET®

Complies with the modified decree of Sept. 8th 1999, relating to processes and products used for cleaning materials and objects intended to be brought into contact with foodstuffs, products and drinks for human and animal consumption.

OFFICIALLY APPROVED WIPES FOR
CLEANING AND DISINFECTION
ACTIVE AGAINST SALMONELLA AND
LISTERIA MONOCYTOGENES

APPROVED BY THE MINISTRY OF AGRICULTURE,
FISHING AND FOOD N° 2060201

DESCRIPTION :

Due to its alkaline character, the cleaning wipe is a strong degreasing product to remove fatty animal and vegetal matter. Its exceptional wetting power ensures a maximum cleaning efficiency. It is non-corrosive for most commonly used materials. It does not contain soda or potash. Due to its especially adapted formula without scents it can be used for perfect disinfection of surfaces in contact with food stuff, without any risk of altering the taste of the food stored nearby.

- Active against salmonella and listeria monocytogenes
- Destroys putrid smells due to its strong deodorizing properties.
Complies with Standards NF EN 1276 in 5 minutes contact at 20°C (bactericide at 1%)
Complies with Standards NF EN 1650 in 5 minutes contact at 20°C (fungicide at 1%)
