BIOLOGICAL DESCALER WC PIPING SYSTEMS AND URINALS

DESCRIPTION :

BIO 18 quickly blocks unpleasant odours at the source.
It deep cleans dirt leaving a pleasant odour.
It restores original lustre to enamel and taps.
It facilitates future cleaning operations by delaying soil deposits due to its protective film.
It eliminates greasy scaling and uric deposits.
It maintains piping systems and evacuation siphons by introducing aerobic flora.
It helps maintain septic tanks in good working order.

In compliance with
Norm 2000/54/EC

TECHNICAL CHARACTERISTICS :

Appearance	blue viscous liquid
pH (pure)	4 +/-0.2
Density	1.01 +/-0.01
Pleasant odour	

METHOD OF USE :

Cleaning:
to be used in pure state on a damp sponge or diluted by 1% to 10%
Apply with a sponge, a brush or a mop for example, just as with a traditional cleaner.
Rinse if necessary.

WC piping networks and urinals:

- 50 ml/device 2 to 3 times per week
- 10 ml/device per day

Apply preferably at night after toilet use or when the effluent discharge is lowest. Leave it work.

PRECAUTIONS :

- Product for professional use. Consult MSDS (upon request only).

The details contained in our instructions, letters and reports are for information purposes only, based on our research trials and are true to the best of our knowledge. We do not claim any liability for their contents.
