BIOLOGICAL ODOUR CONTROL

In compliance with
Norm 2000/54/EC

DESCRIPTION :

Biodor is a scented formula based on multiple bacteria cells which biologically control by destroying organic matter, the source of unpleasant smells. Biodor is biological odour controller, which perfumes in long term the treated parts. Biodor is a formula in blue color.

PROPERTIES :

- Biodor contains micro organisms which consume fatty substances, cellulose, proteins and starches.
- Unpleasant smells are controlled by the breaking down of organic matter, their source.
- Environmentally friendly formula containing no harmful chemicals.
- Reactivates bacteria in the septic tank.
- Rapid elimination of unpleasant smells.
- Long shelf life.
- Pleasant smell.
- Biodor is harmless for man and the environment.
- Treatment of pipes and siphon obstructions.

METHOD OF USE :

SEPTICS TANKS :

Use 100ml of Biodor per week to get rid of unpleasant smells and reactivate the bacteria present in the tank.

- Containers, rubbish tips, skips and dustbins : Biodor can be used against all unpleasant smells of organic origin. Spray Biodor directly on the origin of the smell in containers, skips and dustbins, on to the rubbish tip.
Spray the whole surface to be treated.
Leave it to work. Never use with chemical products.

DRAINS AND TRAPS:

- Remedial dose: 150ml poured directly into the traps and drains for the first week of treatment.
- Preventive dose: 50 to 100ml per week as maintenance treatment.
These quantities should be increased if your pipes and drains are larger or longer than standard. Buildings and apartment blocks should be treated with 100ml per day for a week, starting at the ground floor and working upwards on each level to the last floor. A weekly dose applied from the last floor of the building will maintain the treatment.

BATHROOMS, SHOWERS, TOILETS AND BASINS :

- Spray on the product ensuring the entire surface to be treated is covered. Apply the product on cleaned surfaces.

PRECAUTIONS :

- Product for professional use. Consult MSDS (upon request only).
